

AUCTION #109

AMERICAN NUMISMATIC SOCIETY

MAR 12 1982

MARCH 30, 1982

MAIL BID SALE #109

3010 SANTA MONICA BLVD., SUITE 172
SANTA MONICA, CALIFORNIA 90404
(213) 826-4710

CLOSING DATE MARCH 30, 1982

Our last sale (No. 108) was a tremendous success. We had more than 150 bidders receive lots upon which they bid. We hope to make this sale an even better one.

Offered in this sale will be a nice selection of Ancient Greek and Roman coins, an outstanding collection of Hungarian gold, and a strong section of French coins and pieforts. German Talers and Latin colonial silver will also be well represented. There is a small section of 'Treasure Coins,' from the Dutch ship 'Reygersdahl,' as well as two comprehensive consignments of choice minors. In the last auction, there was very active bidding on the lots, or groups or coins listed under one number. This auction, there will be many of these 'lots' for sale.

In order to provide better service to both our bidders and consignors, we have instituted some changes.

First, we have divided the company into two parts. The first or administrative division, is located at the old address in Decatur, Illinois (PO Box 123, Decatur, IL 62525). The second, or auction division, is found in Los Angeles, California. The address is 3010 Santa Monica Blvd., Suite 172, Santa Monica, CA 90404.

This latter address is the one found on the inside cover of the catalogue and on the bidsheets, and it is to this address in Los Angeles that all your bidsheets will be sent.

Second, we have added a 5% buyer's charge to all lots. This means that the total invoice bill will be increased by 5%. This is done to insure the fact that quality consignments can be obtained. A 5% buyers' charge allows us to reduce the consignment rates from the previous 15-20% (depending upon the size of the consignment), to the present 10-15% (again, this varies based upon the consignment value).

Third, we are placing an estimate next to each lot. This estimate is, in our opinion, the current market value of the lot being offered. You may bid higher or lower than the estimate, but you must bid at least 70% of the estimate. Any bids less than 70% of the estimate will be disregarded.

Fourth, we are placing pictures directly above the descriptions on the same page. This will save you the trouble of turning pages to find your lot pictured.

We hope these changes will be as well received by you as we expect them to be. Now, we wish you 'Happy Hunting' for the material offered here.

Stuart Rubenfeld, President
Jess Peters, Inc.

TERMS OF SALE

1. All lots will be sold to the highest bidder, at the next regular advance over the second highest bidder, at a 5% increase. We reserve the right to reject any or all bids.
2. All items offered are guaranteed to be genuine and as listed. Error on the part of the cataloguer will be cheerfully corrected. Please bid carefully as we cannot be responsible for the errors of others.
3. Lots will be sent to the successful bidders on open account to acceptable, established customers only. New customers, and persons with whom we have had problems in the past, will be invoiced first, and lots mailed only after payment has been received.
4. Payment is due immediately upon receipt of merchandise, or upon receipt of invoice, unless other arrangements have been agreed upon in advance.
5. 6% sales tax will be added to all California orders unless we have on file, a signed exemption certificate and California registration number.
6. A 5% buyer's charge on each individual lot will be added to all purchases made by all bidders. This charge will be based on the amount of the final bid. The above charges will be added to all invoices.
7. An estimate is provided for each lot. This estimate represents, in the opinion of the cataloguer, the current market value of the lot. Lots may, of course, sell for below or above this estimate. Bids submitted at less than 70% of the estimate will be rejected.
8. Bids are to be made, and invoices paid, in U.S. funds only. Foreign bidders must assume all risk of non delivery and should advise if special shipping instructions are necessary.
9. Shipping cost will be added to all invoices. In view of recent difficulties we have experienced when shipping by Parcel Post, all U.S. orders will be sent by First Class Mail, insured, or by Registered Mail, unless we receive prior instructions to the contrary.
10. Title to all lots remains with Jess Peters, Inc., until paid for in full.
11. Minors are expressly forbidden to participate in this sale.
12. In case of tie bids, the first bid received will be declared the winner.
13. Lots will be available for inspection at our bank, during banking hours, by appointment only.
14. Buy bids will not be accepted.

Prices realized lists will be available about ten days after the sale closes at the price of \$1. Please include payment with your request. Consignors and annual subscribers will receive the lists without additional charge.

***NOTE:** In 1960, shortly after the onset of the "Space Race," an unknown American decided that what the world needed was coinage for outer space. Therefore, he minted privately a small quantity of 1 Celestron gold coins. These coins bear a great similarity to U.S. Type 1, One Dollar gold pieces. The man is now long forgotten, but his coinage lives on.

HUNGARY

We at the Jess Peters company take great pride in presenting the following group of Hungarian Gold Coins. The early ducats offered here is one of the finest offerings that has been sold in the United States in many, many years. We think that anyone interested at all in Hungarian gold will find something here for their collection.

AUGUST THE YOUNGER, 1604-1666

- 535 Broad 4 Taler. 1666. Dav-84, Wel-781-A. Struck to commemorate the 88th Birthday of the Duke. These multiple talers of Brunswick were struck to serve as evidences of fealty between the Duke and his vassals. They were distributed to the vassals and could be reclaimed by the Duke in times of war. Many were melted in wartime, and this accounts for their rarity. This particular coin is graded Very Fine+, and is free of the usual planchet flaws found normally on such large coins. There is a very slight discoloration found in the obverse field, ½ mm. below the rim at 12:00. This suggests the possibility of an expertly repaired mount mark, but this is impossible to determine with any certainty. In any case, it is overall an important coin historically: It is well struck and very rare. PHOTO \$ 2500

- 728 5 Drachmai. 1833. Munich mint. Dav-115, Cr-13. Lightly toned Uncirculated. Very minor handling, and a truly exceptional coin. \$ 1500

Greek coins of the nineteenth century are, in general, very common in lower grades, and very rare in AU or better. The sophisticated collectors are aware of this and consequently bid for the Uncirculated coins many times the value they bid for VF or EF examples. The 1833 5 Drachmai would not realize \$300 in EF, but an Uncirculated example would realize between \$1000 and \$2000, depending upon how choice the coin is. This example is fairly estimated here at \$1500. PHOTO

- 829 Following is a most important group of "Treasure Coins." These coins were part of the cargo of the Dutch ship 'Reygersdahl,' which sank off the coast of South Africa, near Capetown on October 25, 1747. The Reygersdahl was traveling from the Dutch East Indies to Holland at the time. The wreck was recovered in 1979. The coins found were all silver 2, 4 and 8 Reales pieces, struck at the Mexico City mint between 1733 and 1744. All naturally show varying degrees of corrosion. Overall, this is a very interesting group of coins. Six examples are offered here.
- 830 8 Reales. 1734/3-MF. C&C-12565. Obverse shows very little corrosion, reverse somewhat more. Holed at 12:00, but a very scarce date. \$ 200
- 831 4 Reales. 1734-MF. C&C-12326. Recut 3. Obverse VF-EF, with planchet flaw above crown. Reverse very choice. A very scarce date. PHOTO \$ 250
- 832 4 Reales. 1736-MF. C&C-12337. Obverse shows no corrosion whatsoever, and is virtually as struck. Reverse is significantly corroded. This coin must have layed on its obverse, with only the reverse exposed to the harshness of the saltwater. \$ 150
- 833 4 Reales. 1738-MF. C&C-12351. Corrosion evident on both sides of the coin. A bit less on reverse, but both sides show all details fairly clearly. PHOTO \$ 225
- 834 4 Reales. 1741-MF. C&C-12369. Corrosion evident on both sides, but all details legible. \$ 150
- 835 4 Reales. 1742-MF. C&C 12373. Corrosion shows on both sides, a bit more on reverse. All details are legible. \$ 150

This concludes our small offering of "Treasure Coins."

- 858 Leicester Daalder. 1590. Dav-8829, Delm-898. The coinage of the Earl of Leicester is of great historical importance. In 1581, the Northern part of the United Provinces repudiated the Catholic sovereignty of Philip II of Spain. Queen Elizabeth of England, not to miss the chance of aiding her Protestant allies, sent the Earl of Leicester to organize the Protestant forces. Under his short tenure (1585-1588), a few coins were struck with his portrait, thus they are all rare. However to find one in this state of preservation is a great find indeed. Toned EF-AU.
